

Attorney Docket No. 95121961.029004

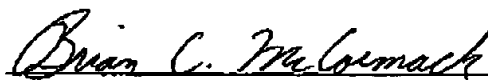

Remarks

Claim 1 has been canceled by this amendment and the rejection of claim 1 is therefore rendered moot. The cited prior art does not show the claimed elements of the new claims presented above. For example, none of the cited references show either a method or structure in which a polarization stack filter that comprises a stack of birefringent layers and at least one active liquid crystal cell temporally modulates the polarizations of first and second primary colors by sequentially imparting polarizations to the first primary color that are different from the polarizations imparted to the second primary color.

Applicants believe that the presently pending claims differentiate from the prior-art of record, and applicants respectfully request reconsideration and early allowance of all claims.

If Examiner has any questions or other correspondence regarding this application, Applicants request that Examiner contact the Applicants' attorney at the below-listed telephone number and address. A three-month extension of time fee is respectfully requested according to the attached petition for extension of time. Beyond that, applicants believe that no additional fees are required in connection with this filing. However, to the extent that fees are required, the Commissioner is authorized to charge those fees, or credit any overpayment, to Account No. 13-0480, Attorney Docket No. 95121961.029004.

Respectfully submitted,

Brian C. McCormack
Registration No. 36,601
